

To Whom It May Concern:

Thank you for your interest in Bluegrass Center for Autism. Unfortunately, at this time your child will be placed in our waiting pool. Waiting pool means that we currently are unable to provide services either center-based or community/home-based services, based on lack of available space or necessary staffing. BCA services are not provided on a first-come, first-serve basis but rather we place clients from the waiting pool where there is appropriate availability for services based on the void that we are experiencing. Age, size, skill deficits and maladaptive behaviors are all areas we take into consideration.

If you were applying for center-based services and we can offer community-home based consulting services, we will be happy to arrange. This will better prepare your child/young adult with the learning readiness skills necessary when center-based services become available. Or you may find that through community-home based services, you no longer need the intensive center-based treatment.

In the event that BCA is unable to provide any of the above services, we have gathered a list of providers in the area that you may wish to contact. Early intervention is key, and BCA would not advise anyone to go without services. The list below is in alphabetical order.

We will update you monthly via email, as to whether our ability to serve you has changed. Please do not hesitate to reach out, should you have questions or if your personal circumstances have changed. Please understand that due to the sometimes-lengthy time spent in the waiting pool, it may be necessary to participate in additional evaluations prior to implementing services.

We hope to be part of your child's journey in the future and we wish you the very best!
